abdominal trauma, CT in children with (*tip*), November, p. 269
abnormalities, minor, in children, significance of (*sci*), September, p. 185
abstinence reverses alcohol-induced hormone imbalance in men (*med*), September, p. 243
abuse, child, the spectrum of (*tip*), November, p. 338
acne vulgaris, management of (*sci*), August, p. 207
adenocarcinoma, large bowel, adjuvant therapy in (*tip*), November, p. 283
adenoidectomy, outpatient tonsillectomy and, are safe (*med*), November, p. 260
adnexal masses during pregnancy, development of (*tip*), November, p. 291
adolescence and sexual assault (*tip*), November, p. 298
adolescent eating disorders, medical complications of (*tip*), September, p. 257
adolescents
—amaurosis fugax in (*tip*), July, p. 313
—obese, coronary risk factors in (*tip*), October, p. 312
—virginal and sexually active, bacterial vaginosis in (*tip*), October, p. 347
advertising campaigns, preventive medicine and (*tip*), July, p. 296
agoraphobia, panic disorder and, alprazolam therapy in (*tip*), October, p. 337
AIDS in health care settings, updated guidelines to prevent (*news*), September, p. 377
AIDS patients
—are at increased risk for suicide (*med*), September, p. 243
—infections in (*tip*), December, p. 228
—nontuberculous, mycobacteriosis and tuberculosis in (*tip*), September, p. 348
—photodynamic therapy improves Kaposi's sarcoma in (*med*), November, p. 260
AIDS-associated arthritis (*tip*), November, p. 295
AIDS-related complex, pediatric (*tip*), October, p. 276
air travel, deaths during (*tip*), September, p. 302
airways, reactive, dysfunction syndrome (*sci*), December, p. 135
alcohol-induced hormone imbalance in men, abstinence reverses (*med*), September, p. 243
alprazolam therapy in panic disorder and agoraphobia (*tip*), October, p. 337
altitude illness, high, acute (*sci*), September, p. 135
Alzheimer's disease, normal aging and (*tip*), October, p. 360
amaurosis fugax in adolescents (*tip*), July, p. 313
amenorrhea is a significant risk for early osteoporosis (*med*), September, p. 246
amphotericin B nephrotoxicity (*sci*), August, p. 199
amyloidosis
—diffuse, pulmonary hypertension in (*tip*), September, p. 341
—urethral (*tip*), August, p. 258
analgesic abuse, nonnarcotic (*tip*), July, p. 294
anaphylaxis, bee sting, and cardiac injury (*tip*), December, p. 218
anemia
—normocytic, improved approach to patients with (*sci*), August, p. 191
—physical signs of (*tip*), July, p. 299
angina pectoris in primary hyperparathyroidism (*tip*), October, p. 376
angiography, femoral artery pseudoaneurysm after (*tip*), September, p. 356
angioplasty
—balloon, of aortic coarctation (*tip*), September, p. 287
—coronary, six-year evolution of (*tip*), November, p. 266
angiosarcoma, right atrial (*tip*), September, p. 324

angioscopy, coronary, percutaneous (*tip*), July, p. 305
antiarrhythmic drug(s)
—classification of (*sci*), October, p. 261
—new: propafenone (*sci*), September, p. 235
antibiotics, new: carbapenems, monobactams and quinolones (*sci*), October, p. 125
anticoagulants, gastrointestinal bleeding in patients receiving (*tip*), September, p. 350
anticoagulation therapy, monitoring (*tip*), July, p. 304
anticonvulsants, withdrawal of (*tip*), July, p. 259
antidepressants may reduce nicotine withdrawal symptoms (*med*), October, p. 269
antihypertensive drugs and serum cholesterol levels (*sci*), December, p. 181
aortic coarctation, balloon angioplasty of (*tip*), September, p. 287
aortic occlusion, acute (*tip*), December, p. 220
Apgar scores as an indicator of fetal asphyxia (*tip*), December, p. 216
arrhythmias
—cardiac, atrial natriuretic peptide in (*tip*), September, p. 342
—ventricular, cardiac transplant and (*tip*), November, p. 332
arterial injuries, delayed diagnosis of (*tip*), September, p. 330
arthritis, AIDS-associated (*tip*), November, p. 295
arthritis patients, many factors affect quality of life for (*news*), August, p. 273
aspirin and Reye's syndrome (*tip*), December, p. 197
aspirin-induced ulcers, prostaglandin analog heals (*med*), December, p. 192
asthma, passive smoking and, effects of, are more severe in girls (*med*), July, p. 253
asthma attacks during upper respiratory infections, prevention of (*tip*), October, p. 382
asthma deaths, pediatric, continue to increase (*news*), September, p. 372
asthmatics, older, epinephrine in (*tip*), July, p. 285
atrial fibrillation in coronary artery disease (*tip*), August, p. 252
atrial natriuretic peptide in cardiac arrhythmias (*tip*), September, p. 342
avulsion fractures involving the cruciate ligaments (*sci*), August, p. 173

B

back pain
—and cancer (*tip*), October, p. 334
—low, in pregnancy (*tip*), July, p. 298
bacterial vaginosis
—(*tip*), September, p. 290
—in virginal and sexually active adolescents (*tip*), October, p. 347
bacteriuria, asymptomatic, in the elderly (*tip*), October, p. 310
baldness, investigators identify possible cause of (*news*), August, p. 278
bee sting anaphylaxis and cardiac injury (*tip*), December, p. 218
benzodiazepine withdrawal (*tip*), November, p. 325
beta-thalassemia, severe, iron chelation therapy in (*tip*), August, p. 268
bicycle-mounted child seats (*tip*), November, p. 328
bile duct stones, shock-wave lithotripsy is effective for (*med*), August, p. 231
biliary tract disease, advanced cirrhosis and (*tip*), September, p. 347
biopsy, aspiration, percutaneous fine-needle, is useful in children (*med*), August, p. 231
bismuth toxicity (*sci*), November, p. 244
bleeding, gastrointestinal, thermal coagulation helps control (*med*), December, p. 192
bone marrow transplant, graft-vs.-host disease after (*tip*), October, p. 372
bone mass in postmenopausal women, exercise and (*tip*), November, p. 278
Bowenoid papulosis (*sci*), July, p. 161
BPH symptoms, drug treatment may relieve (*news*), October, p. 400
brain, hyponatremia and (*sci*), September, p. 119
brain damage from injury, glutamate research may lead to drugs that reduce (*news*), November, p. 358
brain irradiation causes neurotoxicity in lung cancer patients (*med*), August, p. 231

brain metastasis, lung cancer and, combined resection of (*tip*), November, p. 345
breast cancer
—bromocriptine therapy in (*tip*), September, p. 322
—inflammatory (*tip*), September, p. 297
—mammary lymphadenopathy in (*tip*), December, p. 209
—in men (*sci*), July, p. 187
—in transsexuals (*tip*), September, p. 312
breast cancer prognosis, combination chemotherapy improves (*med*), October, p. 272
breast cancer therapy, tamoxifen vs. surgery in (*tip*), September, p. 294
breech presentation, external cephalic version of (*tip*), November, p. 275
bromocriptine therapy in breast cancer (*tip*), September, p. 322
bronchopulmonary dysplasia, outcome of infants with (*tip*), November, p. 336
bypass grafts, internal mammary artery (*tip*), September, p. 321

C

Campylobacter pylori, role of, in peptic ulcer disease (*tip*), September, p. 272
Campylobacter pylori infection (*tip*), October, p. 282
cancer
—avoidable nondietary risk factors for (*sci*), August, p. 153
—back pain and (*tip*), October, p. 334
—breast, bromocriptine therapy in (*tip*), September, p. 322
—breast, inflammatory (*tip*), September, p. 297
—breast, mammary lymphadenopathy in (*tip*), December, p. 209
—breast, in men (*sci*), July, p. 187
—breast, in transsexuals (*tip*), September, p. 312
—cervical, women with genital warts are at increased risk of (*med*), December, p. 189
—colon, study confirms link between a high-fat diet and (*med*), November, p. 359
—colorectal, recurrence of, after hepatic resection (*tip*), September, p. 282
—colorectal, screening for (*sci*), December, p. 105
—fallopian tube (*sci*), November, p. 121
—lung, and brain metastasis, combined resection of (*tip*), November, p. 345
—lung: the early detection challenge (*ed*), November, p. 82
—prostate, estramustine may be useful after surgery for (*med*), November, p. 260
—risk factors for, avoidable nondietary (*sci*), August, p. 153
—in young adults, psychosocial impact of (*tip*), October, p. 304
cancer guidelines, food choices and (*tip*), July, p. 302
cancer patients, lung, brain irradiation causes neurotoxicity in (*med*), August, p. 231
cancer risk factors, lung, in black and white men are compared (*med*), September, p. 246
cancer therapy, breast, tamoxifen vs. surgery in (*tip*), September, p. 294
captopril overdose (*tip*), October, p. 296
carbamazepine provides pain relief in Fabry disease (*med*), July, p. 254
carbapenems, monobactams and quinolones: new antibiotics (*sci*), October, p. 125
carbohydrate malabsorption, fruit juice as a cause of (*tip*), November, p. 276
carbonless copy paper, systemic reactions to (*tip*), October, p. 388
carcinoma
—hepatocellular (*tip*), October, p. 315
—hepatocellular, in the United States (*sci*), October, p. 115
cardiac arrest in morbidly obese surgical patients (*tip*), December, p. 200
cardiac injury, bee sting anaphylaxis and (*tip*), December, p. 218
cardiac transplant and ventricular arrhythmias (*tip*), November, p. 332
cardiac tumor in the fetus (*tip*), December, p. 210
cardiomyopathy, hypertrophic, in the elderly, risks are defined for (*med*), July, p. 254
cardiovascular disease, childhood prevention of (*tip*), September, p. 309
carnitine deficiency (*sci*), July, p. 243

carotid endarterectomy, appropriate use of (*tip*), July, p. 260
carotid plaques, asymptomatic, natural history of (*tip*), September, p. 364
catheters, venous, central, electrocardiographic placement of (*tip*), September, p. 281
cat-scratch disease, liver and spleen involvement in (*tip*), July, p. 280
CD4 toxin holds promise as treatment for HIV infection (*news*), November, p. 355
ceftriaxone therapy, outpatient, for serious pediatric infections (*tip*), August, p. 245
cephalic version, external, of breech presentation (*tip*), November, p. 275
cervical cancer, women with genital warts are at increased risk of (*med*), December, p. 189
cervical ripening with prostaglandin E_2 gel (*tip*), November, p. 314
cesarean sections, previous, vaginal delivery after (*tip*), December, p. 198
chemoembolization enhances treatment of malignant hepatic tumors (*med*), August, p. 232
chemotherapy, combination, improves breast cancer prognosis (*med*), October, p. 272
child, gasoline sniffing and lead poisoning in (*sci*), July, p. 181
child abuse, the spectrum of (*tip*), November, p. 338
child care and children's illnesses (*tip*), November, p. 263
child seats, bicycle-mounted (*tip*), November, p. 328
childhood
—Group A streptococcal bacteremia in (*tip*), September, p. 319
—tic disorders in (*sci*), August, p. 163
childhood prevention of cardiovascular disease (*tip*), September, p. 309
childhood sexual abuse, consequences of, in adult women (*tip*), August, p. 256
children
—with abdominal trauma, CT in (*tip*), November, p. 269
—attending day care centers, infections among (*tip*), September, p. 281
—bacterial meningitis in, treatment of (*tip*), September, p. 260
—cholesterol screening in (*ed*), August, p. 100
—clinical manifestations of HIV infection in (*tip*), October, p. 378
—ethanol ingestion by (*tip*), October, p. 275
—gunshot wounds in (*tip*), October, p. 362
—minor abnormalities in, significance of (*sci*), September, p. 185
—panic disorder can occur in, study indicates (*med*), September, p. 243
—percutaneous fine-needle aspiration biopsy is useful in (*med*), August, p. 231
—rectal prolapse in (*tip*), September, p. 304
—with refractory encopresis, intestinal cleanout in (*tip*), July, p. 278
—tuberculin-positive, without evidence of disease (*tip*), September, p. 364
—12- to 24-month-old, varicella vaccine in (*tip*), September, p. 310
—use of stimulant medications in (*sci*), October, p. 197
—young, fatal pedestrian injuries to (*tip*), November, p. 335
chlamydial infections
—diagnosis of (*tip*), October, p. 364
—enzyme immunoassay for diagnosing (*tip*), November, p. 326
cholecystitis, emphysematous (*sci*), October, p. 157
cholescintigraphy in critically ill patients (*tip*), November, p. 272
cholesterol levels, serum, antihypertensive drugs and (*sci*), December, p. 181
cholesterol screening in children (*ed*), August, p. 100
cholesterosis and gallstones (*tip*), December, p. 224
circumcision
—neonatal, and subsequent penile problems (*tip*), September, p. 266
—newborn (*sci*), October, p. 151
cirrhosis, advanced, and biliary tract disease (*tip*), September, p. 347
cisplatin toxicity, modifying (*tip*), November, p. 348
clinical research trials, questions to ask about (*ed*), July, p. 94
clozapine shows promise as new treatment for psychosis (*news*), July, p. 326

coagulation, thermal, helps control gastrointestinal bleeding (*med*), December, p. 192
cocaine and other stimulant use (*tip*), October, p. 394
cocaine use, myocardial infarction and (*tip*), November, p. 345
cocaine users, infants born to, may have neurologic impairment (*med*), July, p. 253
coccidioidomycosis (*tip*), September, p. 324
colic, infant, treatment of (*tip*), November, p. 295
colon cancer, a high-fat diet and, study confirms link between (*med*), November, p. 259
colonic polyps, proximal, isolated (*tip*), October, p. 332
colonoscopy, intraoperative, limits extent of surgery (*med*), November, p. 359
colorectal cancer
—recurrence of, after hepatic resection (*tip*), September, p. 282
—screening for (*sci*), December, p. 105
colorectal cancer cases, some, radiation therapy is successful in (*med*), October, p. 272
colorectal polyps, small, are found to be clinically significant (*med*), August, p. 232
condyloma acuminatum, interferon therapy for (*tip*), October, p. 351
constipation, chronic, anal manometry helps identify causes of (*med*), October, p. 272
contraception: options improve but attitudes lag (*news*), July, p. 321
contraception method as a risk of endometriosis (*tip*), October, p. 316
contrast media, intracoronary, heart rate response to (*tip*), September, p. 257
conus medullaris syndrome, diabetic neuropathy vs. (*tip*), July, p. 316
corneal transplantation (*sci*), November, p. 135
coronary artery disease
—asymptomatic, noninvasive tests may detect (*med*), December, p. 189
—atrial fibrillation in (*tip*), August, p. 252
coronary artery stenting and stenotic geometry (*tip*), October, p. 320
coronary disease, postmenopausal estrogen use and (*tip*), July, p. 300
coronary heart disease, type A behavior and: an update (*sci*), November, p. 105
coronary ostial stenosis, isolated (*tip*), August, p. 235
coronary risk factors in obese adolescents (*tip*), October, p. 312
corticosteroid therapy, immunosuppressive effects of (*tip*), December, p. 223
coxsackievirus B infection, complications following (*sci*), November, p. 115
coxsackievirus B, myalgic encephalomyelitis and (*tip*), November, p. 272
creatine kinase, peaks in, following myocardial infarction (*tip*), October, p. 370
cruciate ligaments, avulsion fractures involving (*sci*), August, p. 173
CT in children with abdominal trauma (*tip*), November, p. 269
cyanosis due to pulmonary arteriovenous malformation (*sci*), October, p. 187
cyclophosphamide and interleukin-2 for melanoma (*tip*), October, p. 286
cytomegalovirus transmission (*tip*), December, p. 218
cytopenias associated with lupus, splenectomy for (*tip*), August, p. 238
